The use of brand names does not imply endorsement of the products named or criticism of similar ones not mentioned. Individuals who use agricultural chemicals are responsible for ensuring that the intended use complies with regulations and conforms to the product label. Be sure to obtain current information about usage regulations and examine a current product label before applying any chemical. Not all products are used at all farms. In addition, this list does not include all chemicals used.

Distributed in furtherance of the acts of Congress of May 8 and June 30, 1914. North Carolina State University and North Carolina A&T State University commit themselves to positive action to secure equal opportunity regardless of race, color, creed, national origin, religion, sex, age, veteran status or disability. In addition, the two Universities welcome all persons without regard to sexual orientation. North Carolina State University, North Carolina A&T State University, U.S. Department of Agriculture, and local governments cooperating.
